| | | | | |

Confidential Computing SIG

- Leadership swap due to individual member status
 - Suresh <-> Ravi

*No objections or comments regarding
Confidential Computing SIG*

*M-Mode Isolation, Guernsey agreed to
be acting chair as James (qualcom)
is stepping back.*

Updates...

- Markku – Crypto, PQC
- Others... ?

Markku presented some updates.

Other updates - Memory tagging , there is a proposal based on pointers but this is waiting on the pointer masking to close

- Cheri Encumbered IP ?

Appears there is not an issue, but MarkH reminded folks to check the encumbered IP policies on the RVI website

Office Hours

- Proposal for monthly Q&A, Discussion session
- Idea is to allow newbies and regular contributors alike to get clarification on the complex security ecosystem – what goes where, issues etc
- Rotating Chair – volunteers ?

Consensus was this is a good Idea. Need to find a time slot, or moving slots. Nick and other also agreed to chair.
